

# Crop Model Training Tech Stack

End-to-End Pipeline for Deep Learning Models

1. Data  
Preparation

**Data & ETL**

Pandas, NumPy

2. Feature  
Engineering

**Preprocessing**

Scikit-learn,  
ColumnTransformer

3. Training &  
Iteration

**Deep  
Learning**

TensorFlow,  
Keras

4.  
Deployment  
Ready

**Save  
Artifacts**

Joblib, H5,  
Matplotlib

**Model 1:** Crop Recommendation

**Model 2:** Yield Prediction
